Cables Better Than Due and Market Gets Good Support. Frost for East Belt.

Friday Afternoon, April 25.

Strength was the ruling tone in the market today, and there was more than season for it. Liverpool came better than due by a goodly margin and the ished even better, while there was uniformatic features in the weather news a upper part of the belt was cool and the indication for this to continue, especially for the eastern pertion, with chances good for considerable frost tomorrow morning. Some rains ware falling this morning and the forerast was for more, but those promised for the western belt were regarded as favorable, as some recent advices have told of them being needed in Oklahoma and Texas. In the local territory rains in moderate amount will also be acceptable, as they will help bring up recently planted fields. Some of the buying was based on a feeling that the apell of weather will probably hep give the coming weekly report a bullish tenor.

The situation at Paris was regarded. Friday Afternoon, April 25.

The situation at Paris was regarded as full of uncertainties, but either the traders thought these would be distinguished when the present worked would be distinguished and that present worked would pass or that other things were more important as price factors at the present time. Laverpool cames said the Hallan crisis was being given small attention over there, and such second the case on this side.

Laverpool was due to come 18 to 25 points over yeareday's close.

couraged support, the weather being a factor also.

New July opened at 26.2hc, touched 18.5c.

New Outber opened at 24.6hc, disped 16 points, then worked up to 25.5c.

Frofits were accepted, for there was promise of bearish weekly statistics and same people thought the indicated rains in Texas would bein prospects. But the reaction did not go far and later there seemed two sides to the affair, with fluctuations within marrow limits. marrow limits.

The marked strength in the grain

The marked strength in the grain Market, corn jumping several cents a bushel, was not much of a factor, although it increased the incentive to the cotton belt to grow more of the cercal. Spots were generally steady in the belt and exports for the day were fairly large, but there was nothing especially new in this and it was not sufficient inducement to aggressive support in New Orieans quotations were slightly elevated, middling up 15 points to 27.63c, with sales 1.987 bales.

New contracts closed 23 to 56 points up, old up 38 to 65 points, tone steady. New Orieans new closed 25 to 42 points up, old 42 to 65 up, with tone very steady.

In the local market inquiry continues good, but offerings are moderate and holders are firm in their demands. Sales reported for the day were 2,400 bales, making 21850 for the week Quetations were unchanged, middling at 17.50c.

LONDON, April 25.—Coincident with publication of the report showing that during the last quarter of 1918 the number of deaths exceeded the birthrate for the first time in the history of civil registration in this country, the war office has announced the release in one week of 700 physicians from the army. Influenza caused the great increase in the death rate, the number of victims from that disease being 88,985, or 41 per cent of the total deaths for the period. Lack of physicians is held responsible for the failure to curb the epidemic. At the beginning of this month, although 1,750,000 men of the army had been demobilized, only 1,500 out of 11,000 physicians had been released. LOST—Watch fob, monogram, "R. Automobile Trailers

Not the cheap two-wheel affairs, but a sure enough four-wheel trailer that can be attached to any make of auto-mobile. Two models, one with a carrying capacity of 1.400 pounds, and a model with a carrying capacity of 2.000 pounds. Telephone or write: or, better still, come by and see the trailer cars, and we will give you a demonstration. If out of town write for descriptive circulars.
